ASTRATTA MIAMI

Inspired by the shapes, colors, and textures of Miami's art deco architecture, Italian artist **Elisa Passino** transforms these iconic structures into a series of unique wallcovering designs. Her signature use of clean lines, contemporary pattern, and pleasing hues pays homage to the pastel palette and curvature of Miami Beach's historic district. The designs are enhanced with touches of risograph-printed texture throughout, creating an interplay between precise geometry and handmade texture. Each design is offered in both small and large scales to create varying levels of impact on the wall.

PRODUCTION

Astratta Miami is a unique wallcovering collaboration between Elisa and Astek, developed and printed to order in our Los Angeles studio. Advanced technology allows us to print on a wide range of substrates, match subtle colors with extreme precision, and print at high resolutions and speeds without sacrificing quality.

DIGITAL PRINT

Our printers use a digital process which is eco-friendly, capable of different printing effects, allows for low print minimums, fast turnarounds, and detailed control over output and quality.

ALTER SCALE

Digital designs can be scaled up or down to fit your space and aesthetic preferences.

CUSTOM MATERIAL

Any of our in-stock substrates can be used with our digital designs. Have your own material? We can sample on that, too.

CUSTOM COLOR

From subtle to drastic, our digital designs can be completely recolored. Send us your color preference and we'll apply it.
