

A detailed and vibrant floral arrangement set against a dark, textured background. The bouquet features a variety of flowers: a large red dahlia in the lower left, a yellow and red striped tulip in the center, a large purple dahlia in the upper right, and a tall stem of blue delphiniums. Other visible flowers include white ranunculus, a blue morning glory, and small purple flowers at the bottom. Several butterflies, including a monarch and a glasswing, are perched on the blooms, along with a few ladybugs. The text "IN BLOOM" is prominently displayed in white, bold, sans-serif capital letters, with "astek" in a smaller, lowercase, sans-serif font directly below it.

IN BLOOM

IN BLOOM

Bas Meeuws' work breathes new life into the 17th-century Dutch and Flemish still life genre. Using photography as a base, he draws on his catalogue of over 13,000 species to create intricate floral arrangements, here and there enlivened by insects or gastropods. Demonstrating mastery in skill, his hyper-realistic photographic "paintings" are bursting with gorgeous and unexpected details. In Bloom is an exclusive collection printed with precision as show-stopping murals by Astek.

PRODUCTION

Rich color and photographic details are brought to life by our skilled in-house production team. Each In Bloom mural is digitally printed to order to the client's specifications. Advanced technology allows us to print on a wide range of substrates, match to a subtle degree in color, and print at high resolutions and speeds without sacrificing quality.

Digital designs can be scaled up or down to fit your space and aesthetic preferences.

ALTER SCALE

Any of our in-stock substrates can be used with our digital designs. Have your own material? We can sample on that, too.

CUSTOM MATERIAL

DIGITAL PRINT

Our printers use a digital process which is eco-friendly, capable of different printing effects, allows for low print minimums, fast turnarounds, and detailed control over output and quality.
