
WISH YOU
WERE HERE
astek X AVENUE

astek X AVENUE

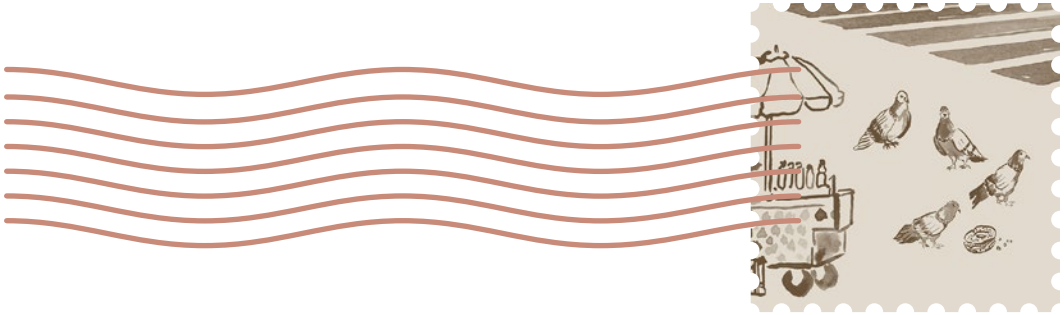

Some places stay with you long after you've returned home. **Wish You Were Here**, a wallcovering collaboration from **Astek** and **Avenue Interior Design**, is an ode to wanderlust and storytelling. The collection captures a sense of place: the shifting landscapes and historic architecture, the quick meals on the go, the dinners that linger late into the night, and all the wonderfully ordinary details that become everlasting memories.

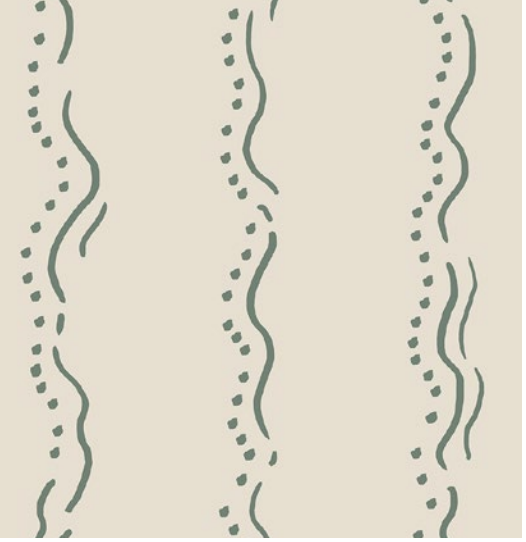

This collection merges Astek's artistic prowess and state-of-the-art printing capabilities with Avenue's creative direction and masterful eye for interiors. At the heart of the collection, each destination is anchored by a focal mural featuring a meandering landscape. As your eye travels across the wall, you are invited to discover subtle nuances and iconic landmarks that capture the authentic feeling of each locale. To complete the design story, each mural is accompanied by three coordinating patterns in distinct yet harmonious color palettes. These versatile designs can be used independently or seamlessly paired together to create a cohesive, fully immersive environment.

**Wish You Were Here** is a series of love letters to our most unforgettable destinations—designed to bring your favorite places home.

# PRODUCTION

**Wish You Were Here** is a wallcovering collaboration between Avenue Interior Design and Astek, developed and printed to order in our Los Angeles studio. Printed on a lightly textured Type II material in both matte and metallic finishes, this collection also features our dimensional haptic technique, creating a raised, emboss-like finish.

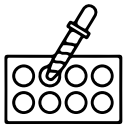

**ALTER SCALE**

Digital designs can be scaled up or down to fit your space and aesthetic preferences.

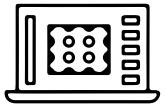

**CUSTOM MATERIAL**

Any of our in-stock substrates can be used with our digital designs.

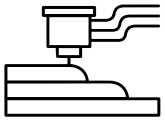

**CUSTOM COLOR**

From subtle to drastic, our digital designs can be completely recolored. Send us your color preference and we'll apply it.

**CUSTOM DESIGN**

Our designers can alter digital designs to create a unique wallcovering for your project.

**HAPTIC**

Our haptic technology enables us to print raised surfaces emulating the look and feel of embossed patterns and even brushstrokes in fine artwork.
